

# Cyber Crisis Leadership: Uniting Security and Leadership

---

Laura Jury – Chair ISRM AKL Chapter

---

# Anatomy of disruption- why it hits leadership hardest

Detection

Escalation

Strategic Impact

# Cyber crises don't stay in the SOC

Technical issue → Operational disruption → Reputation & leadership crisis.

Muscle memory >  
binders of plans

From theory to  
practiced response

# Key Takeaways

Treat your response plans as *living systems*, not static documents; exercise them to expose blind spots before reality does.

How confident are you that the underlying people driven systems stand up to pressure?

Offline or printed copies of the plan
